

neuroloop® develops a platform to stimulate the vagal nerve for the treatment of chronic diseases in connection with autonomous body functions. The core of our platform is a multi-channel cuff-electrode based on thin-film technology that allows us to selectively stimulate specific fibers within the nerve.

Our first product, the baroloop® stimulator, is specifically designed to treat high blood pressure. Our primary focus is to provide an outstanding clinical effectiveness while minimizing risks and side effects for the patient, and a simple and safe use for the caregiver.

neuroloop® is a spin-off of the University of Freiburg and the Freiburg University Hospital. The start-up won the well-known med-tech giant B. Braun as a proficient partner and investor.

We are currently looking for the next possible entry in Freiburg i.Br. for a

Field Service Technician (f/m/d)

Part-time possible >80%

Mainly you provide technical support for the human approval study of the baroloop® stimulator. This counts for the hard- and software support of the device, remote and on-site. Furthermore this includes maintenance, calibration, updates and troubleshooting, as well as repairs or replacement of device components. Beside to the technical support for the clinical studies you'll be part of the technical training. You'll also generate test documentation and field service documentation.

Your profile

- You have completed studies in medical technology or have acquired comparable qualifications.
- You have in-depth knowledge and experience with regulatory requirements (MDR, ISO13485).
- You are flexible and are motivated to travel, also in European abroad.
- You are well skilled in communication and have a distinct service mindset.
- A good command of written and spoken English is a prerequisite for communication in our international team.

We offer

- An exciting activity in a young company working on the development of the next generation of medical active implants.
- A dynamic, agile and international environment in a small, dedicated team.
- Variety of tasks and challenges that you can grow with.
- The opportunity to develop and implement your own ideas.
- Performance-based salary with attractive social benefits.
- Family-friendly atmosphere through flexible working hours and the possibility to work partly from home.
- A brand new, modern office optimized for focused and collaborative work.

- Generous social and creative areas and staff facilities (lounge, lockers, changing rooms, showers etc.)
- High quality of life in one of Germany's most attractive cities.
- Promotion of bike leasing and public transportation as well as a comprehensive self-designed training program.
- Start-up environment with short lines of communication and quick decisions, but still with a large international player in the background.
